

## Security Policy

### Objective

Yinson Production is committed to prevent harm to our personnel, our facilities and assets as a consequence of criminal or terrorist activities, or any other hostile or malicious acts.

We believe that the risk and consequences of security related incidents can be minimized by:

- Raising awareness of security related risks;
- Carrying out adequate risk and opportunity assessments;
- Avoiding or mitigating identified security risks;
- Clearly defining roles and responsibilities related to managing security;
- Ensuring we have adequate in-house security competency and expertise;
- Ensuring that we comply with relevant regulatory requirements, including the ISPS code.

This policy is applicable to all Yinson Production personnel, contractors and visitors engaged in activities under Yinson Production controlled sites.
