

Stop Work Policy

Objective

The objective of this policy is to outline the right and the duty to stop work that is deemed unsafe.

Yinson Production is fully committed to providing a safe, healthy and environment-friendly workplace for all.

It is the duty and the right of everyone employed or engaged by Yinson Production to STOP WORK when there is a potential danger to the safety and health of any person or potential harm to the environment or property.

An individual's decision to stop work will always have the full support of the management and where there is any doubt whether the work should be stopped, the individual should remember that it is always better to stop work one time too often rather than one time too few.

This policy is applicable to all Yinson Production personnel, contractors and visitors engaged in activities under Yinson Production controlled sites.
